REPORT Submitted at the meeting: Refers to 4(c) TO: Nomination Grand Pré Advisory Board From: Christophe Rivet, Project Manager Date: June 4th, 2009 RE: Project Management

Background

Parks Canada has provided the project management capacity for the successful delivery of the nomination proposal for Grand Pré. The tasks of the Project Manager include:

- sitting on the Steering Committee and the Advisory Board;
- develop, implement, and update as needed a project timeline;
- identify necessary resources for the delivery of the specific components of the project;
- facilitate the coordination of the different aspects of the project (communication, administration, consultation, content);
- provide guidance on the interpretation of UNESCO's requirements;
- coordinate expert input;
- produce key components of the nomination proposal;
- organise and participate in stakeholder engagement activities;
- serve as a point contact for media relations;
- provide regular reports to the Advisory Board;
- coordinate ongoing review by the Canadian Delegation;

lssue

The current roles and responsibilities are deemed by the Steering Committee to be too much for a single individual. The roles and responsibilities of the Project Manager need to be divided to ensure greater success in delivery of the nomination proposal.

Rationale

The project is entering a phase where the attention to content and building support are critical while the need to be attentive to carrying out the coordination of the delivery of each component will increase.

Proposal

The responsibilities of managing the project will be divided in two. The position of Project Manager will continue to be provided in kind by Parks Canada. The position of Project Coordinator is a part-time position and will focus on the effective coordination of the different components of the project and provide support in public relations.

Job description for Project Manager

The Project Manager would maintain the responsibilities of:

- sitting on the Steering Committee and the Advisory Board;
- providing guidance on the interpretation of UNESCO's requirements;
- coordinating expert input;
- producing key components of the nomination proposal;
- organising and participate in stakeholder engagement activities;
- serving as a point contact for media relations;
- coordinating ongoing review by the Canadian Delegation;

In addition, the Project Manager will be tasked with:

• engaging the Acadian community;

Job description for Project Coordinator

The Project Coordinator would:

- provide support to the Steering Committee and the Advisory Board;
- develop, implement, and update, as needed, a project timeline;
- identify necessary resources for the delivery of the specific components of the project;
- facilitate the coordination of the different aspects of the project (communication, administration, consultation, content);
- provide regular reports to the Advisory Board;

In addition, the Project Coordinator will be tasked with:

- developing tools to engage stakeholders;
- providing support for the development of content to engage stakeholders;
- providing public relations expertise;
- assisting in organizing stakeholder engagement activities;
- assisting the Project Manager as needed.

Recommendation

Recommendation: that the Advisory Board approve the hiring on a part-time basis for 18 months of a Project Coordinator.

PHASES (SEE PROGRESS REPORT 9 FOR OUTLINE)

Description of Area:

Nothing to report

Next steps: none

Justification for Inscription:

The second criterion (criteria v of the *Operational Guidelines*) is been rewritten to emphasize the relationship between the communities that once and now live in the area, the agricultural activity, and the distinct environment of Grand Pré. Once a final recommendation is made it will be submitted to the Advisory Board for approval.

Next steps: Work on comparative analysis continues with additional exchanges with experts. A local (i.e. within Atlantic Canada) and regional (North America) comparison was drafted by John Johnston and Ronnie-Gilles LeBlanc. Work has begun on the international context. Draft a proposal for inviting key experts for a three day trip to Grand Pré to finalize the comparative analysis.

Evaluation of present state of conservation:

The archaeological research team, a collaboration between Parks Canada, the Nova Scotia Museum, and St. Mary's University is currently undertaking a survey of the uplands to provide additional information on the location and significance of structures and features.

Next steps: Confirm landscape attributes and determine condition. Ongoing discussions on determination of condition of dykes.

Assessment of factors affecting the property:

The working group has identified some key factors affecting the proposed area based on UNESCO's four main areas of concern: development pressures, environmental pressures, visitors and tourism, and natural disasters.

Next steps: Discuss the key factors and proposed policies under each type of pressure.

Monitoring plan:

Not begun.

Next steps: none

Develop protective and management system for the proposal:

National historic site process

The planning process for the national historic site is underway. First series of consultation took place during the week of June 21st and the first week of July. Target date for draft is October 2009 in preparation for Aboriginal consultation.

Next steps: draft management plan and additional consultation.

Municipal process

Municipal process underway and on schedule. See Community Planner's report

Next steps: see Community Planner's report

Management and land use working group

Working group will have its second meeting on July 8th. The purpose of the meeting is to discuss proposed approaches to deal with the pressures, including buffer zones. Additional information will be provided on the day of the Advisory Board meeting.

Next steps: Prepare more detailed management direction and begin drafting of the management plan. Follow up on the recommendations of the working group.

Visitor and Interpretation:

A request for proposal is being finalized to identify experts that can help with the development of an interpretation plan. The plan would address the concerns that are directly related to the proposal as well as offer direction on future opportunities for tourism and interpretation in the community.

Next steps: finalize and issue the RFP. Select the consultant.

Draft proposal:

Standing offers for editing, translating, design, photography and videography are being finalized. Two Standing offers will be offered: one for photography and videography and the other for the rest. Consultants on these standing offers will provide support to the project in preparation for the draft and final nomination proposal as well as for ongoing communication related matters.

Next steps: draft elements of the protection and management of the property section and of the comparative analysis.

Project administration:

Project coordinator is in process of being hired. See financial report

Next steps: See financial report

Communication and public engagement:

Kings RDA hired an intern that will provide support to the project for communication, implementing the ICON report, and the website. Parks Canada is providing in-kind support to prepare the design and content of the brochures as well as prepare an update to the website which will include new tools.

Next steps: Finalize brochures and booth. Prepare for the project's participation in the Congrès Mondial Acadien 2009 in New Brunswick in August. Ensure that the French side of the website is fully functional and that all information is translated.

Engagement of the Acadian community

See above.

Next steps: none.

Economic development & interpretation strategy:

Nothing to report.

Next steps: None

Approval process for final document:
